Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1, 2 and 9-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Gillies et al. (U.S. Pat. 4,916,533) for the reasons set forth in numbered paragraph 6 of the previous Office Action, paper number 20080510.

Allowable Subject Matter

3. Claims 3-8 are allowed.

Response to Arguments

4. Applicant's arguments filed August 13, 2008 have been fully considered but they are not persuasive.

Applicant states that Gillies et al. does not disclose or suggest the shape-of-range estimating means as claimed in claim 1 but fails to provide any reason for this conclusion. The Examiner maintains that processing structure in Gillies et al. that estimates the curve (e.g., shape of the specified area) based on the arrangement of pixels (e.g., the continuity of the distribution of pixels) sampled by the pixel sampling means (35, col.9, line 53 to col.10, line 66) does indeed anticipate the shape-of-range estimating means as claimed in claim 1.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
